The Pulse of NorthPark

Attention New Students! 2015 VATTEROTT PRESIDENTIAL ACADEMIC ACHIEVEMENT SCHOLARSHIP. Deadline for 12/29 starts WAS: 1-30-2015 ... 1/26/2015 STARTS ... you have until 2/27/2015 to apply!

The Vatterott College Scholarship is open to students, each phase, who:

· Are new Students who enroll and start classes at any Vatterott Educational Centers, Inc. ("VEC") school.
· Graduate from their program of study within the designated time for completion (i.e. a student enrolled in a seventy week diploma program must complete the program within seventy weeks);
· Graduate from their program with a minimum Grad Point Average of 2.5;
· Submit an application, along with providing an essay and 2 reference forms to the School's Registrar, no later than close of business Monday of the 5th week of the New Student's first term.

Awards:
· Each recipient of the 2015 Vatterott Presidential Academic Achievement Scholarship will receive Two Thousand Dollars ($2,000.00) to be credited to the recipient’s student account at graduation. Should this result in a credit balance, the funds would then be applied to any outstanding student loans in the student’s name.

Medical Assisting w/ Limited Radiography
Call now ... 314-264-1000 for this career.
FROM THE REGISTRAR’S OFFICE

Students needing transcripts,

There is a $10 fee for Official Transcripts. These come signed & sealed.

Procedure:
1. Go to Accounting to pay $10 fee & to also determine whether you owe a balance. Students with a balance are not eligible to receive transcripts.
2. After you have receipt in hand from Accounting, cross the hall to the Registrar’s office and we will be happy to ready your transcripts.

Thank you for your smiles, too. We are here to ensure your experience at Vatterott, NorthPark is everything you need it to be. Come by and see us.

NEED HELP WITH CANVAS?

Please see Brian McFerron in the Frist Level LRC, Learning Resource Center/Library. He is here to assist you with your academic success.

Check out the Free Book section he has for you, also. Note as well, you are welcome to donate books you’ve completed for the usage of others.

IRS QUESTION?

Contact: 1098T@vatterott.edu

FROM STUDENT SERVICES ...

Jean’s Days ...

Every 3rd Wednesday of the month:
   Staff/faculty ($3.00)
   Students ($1.00) Give to Instructor

Dates for Jean’s Day:
2/18, 3/18, 4/15, 5/13, 6/17, 7/15, 8/12, 9/16, 10/14, 11/18, & 12/16/2015.

Nacho Sale – fund raiser for SEF:
February 11th
12pm & 5pm

RESOURCE FAIR WILL BE HELD MARCH 25, 2015

We have reached out to vendors for the following resources; daycare, eye care, St. Patrick’s Center, Urban League, Metro Call-A-Ride, Citizens for Modern Transit & US Bank. The Resource Fair is for YOU and will be held here on campus! More details forthcoming. Look for signs in the hallways.

ALWAYS INTERESTED IN HEARING FROM YOU—NPNEWSLETTER@VATTEROTT.EDU

The NorthPark Newsletter is your newsletter—to keep you informed, to help you brag, to challenge you with industry related articles. It is also YOURS in which to share thoughts, articles, stories, artwork, photos, recipes, puzzles, lyrics, poetry, spoken word .... Love to hear from YOU, the student body. Send your work or ideas to Dacia @ NPNewsletter@vatterott.edu.

And ... always be ready with your cheesy grin if you see this face behind a camera ... my eyes get to twinkle and that means you’re on Newsletter camera. Who knows what will end up in the Newsletter. Again, don’t be shy ... SHARE what you have. Get yourself into the Newsletter. You are always welcome! We look forward to hearing from you!

**Attention HVAC & Building Maintenance Students!**

Mills Properties will be here on Thursday, February 5th to meet you. Head’s up. Watch for signs. Seek out Student Services and/or Your Program Directors for more information!
CONTINUING EDUCATION @ VATTEROTT

Did you know we offer Continuing Education after your graduation? What does that mean, you ask? Well ... Continuing education (called further education in the United Kingdom and Ireland) is an all-encompassing term within a broad spectrum of post-secondary learning activities and programs. The term is used mainly in the United States and Canada. Recognized forms of post-secondary learning activities within the domain include: degree credit courses by non-traditional students, non-degree career training, workforce training, formal personal enrichment courses (both on-campus and online), self-directed learning (such as through internet interest groups, clubs or personal research activities) and experiential learning as applied to problem solving.

At Vatterott, we offer classes in:
- Basic Fire Alarm Installation
- DOT Welding Concepts
- Forklift Operation
- Smartphone Programming

Better Green Business
- Electronic Evidence Discovery
- Mechanics Lien
- Your Role in the Green Environment

LETTER FROM THE EDITOR

BY DACIA WILKINSON, REGISTRAR

In this 2015 world people feel entitled to freebies, to benefits, to a higher wage for minimum wage work, to free education, to keep a job no matter their behavior, to transmit negativity and breed contempt and pay no consequences. Individuals are more concerned with their own needs and what they think they deserve than with the whole of a picture, than of the workplace.

Signing the acceptance letter to a company is a pact—a pact to ensure company growth based on your individual and team-natured performance. This is what business owners want and need—each person they employ is a risk. Interviews do not tell who a potential employee always is—some are smoozers, some are charmers, some are decent liars, sometimes a boss has no other candidates and no other choice but to take the overly confident guy who’s obviously tooting a large horn.

Resumes don’t always tell who a person is either—they get forged/fabricated. Shocking, right? Happens. A lot. That’s why I love LinkedIn—I read what you write in recommendation letters more than what someone else has said about you. Communication style, personality, work ethic leak through word choices and language use, grammar, all of those things.

As a business owner, I can tell you Work Ethic is the crux of it all. So many waste more time than they profit our small business. With the restructure of services, my husband along with at least one other on occasion, will bring in just as much income as when we employed a larger number of people in our lawncare/landscaping company. People don’t want to work unless it entitles them in some way—no matter rate of pay.

Well … I say you are entitled. You are entitled to do good work and keep your job based on performance and attitude—these declare a work ethic. Every position/job is irreplaceable. Every person in a position is replaceable.

Work Ethic can be defined by what you do when no one is watching and why you do it. Understanding the job is not about you, but about the company—seeing the larger picture, not doing it for personal gain alone, but the betterment of the work environment … Always remember the boss doesn’t care whose name is on the paycheck as long as the job gets done. Earn that paycheck so he keeps putting your name there. Employees who understand this tend to stick around.

Stay positive. Work at 110%. Follow the advice of Theodore Roosevelt—Whenever you are asked whether you can do a thing, say, Certainly I can, and then set about figuring out how to do it. Thank you, Teddy! Work understanding you are a part of a whole and no matter the position, it is important. So, be important to the company … not to yourself.

It’s not about you! This world needs more people who put others first, who understand their place in the whole. As citizens of these United States, a guaranteed right of ours is to work for what we have, to earn, to gain based on performance and desire to achieve.

3 Simple Questions to Help You Write a Better Resume

December 3rd, 2013 By Jessica Holbrook Hernandez

When you sit down to tackle writing your resume—especially when you’re applying for a specific position—ask yourself these three questions to ensure your resume is hitting the mark.

WHO AM I PROFESSIONALLY?

When an employer reads your resume, it should communicate who you are professionally. Be specific about the position you’re targeting, use a job title, and include certifications or credentials specific to you. Then ensure this information is located in the top third of your resume.

WHAT DO I DO?

Your career experience is unlike any other candidate’s. Quantify your achievements; use metrics, numbers, facts, and figures to back up your experience as opposed to bland statements such as: results-driven and successful. Define your successes in a very specific way; avoid generalities and vague statements. For example, instead of saying you’re a team player or a team leader, write about how many people you led and what you “led” them to do.

When you’re stumped regarding exactly how to be specific with something within your resume, ask yourself questions such as how much, how many, and how often.

WHAT VALUE DO I OFFER?

Here’s where you can connect all the puzzle pieces. Make the connection between who you are and what you do—and how these two elements will meet the employer’s needs. This is the value you offer the employer; and the great thing about this is that no other candidate offers what you do. You possess a unique set of skills and experiences that you can bring to the table. Your job is to make the correlation between those past successes and this potential employer’s present and future needs.

For example, I once worked with a lumber mill that had an incredibly long fill time. It would take 3+ weeks to screen, hire, train, and start a new employee—costing the company valuable time and resources. I streamlined the hiring process and cut the fill time from 3+ weeks to 5 days. Reducing the company’s fill time was a huge need for them—and I was able to assist them with this. They knew I could successfully accomplish this because I had included on my resume an instance of when I had done this previously for a medical device manufacturer whose fill time I cut from 2 weeks to 3 days.

My resume and experience spoke to an immediate need, thus demonstrating the value I offered as an employee.
“WOW” Project For Electrical AOS Complete

This is the Solar Generator the Electrical AOS students worked on. The framework was fabricated by a set of plans provided for the Welding AOS Students. Once the frame was complete it was painted and the Electrical Students went to work on the wiring and the installation of the components.

This is an 1800 watt generator powered by (2) 110 amp hour batteries. It will run lighting and most electrical items turning DC power into AC power through its inverter. The generator also has (2) 150 watt solar panels providing the sun's energy through a 30 amp charge controller that will recharge the batteries quickly safely. We have it displayed so potential students can see what they will learn as a Vatterott Electrical Mechanic.

What makes a solar generator important

In the event our grid power would go down, this generator would run things like a refrigerator to keep food from spoiling, your home computer, TV, emergency equipment, and lighting. They are very valuable during emergency situations. A unit like this will allow a family to remain comfortable during a very uncomfortable situation.

What practical use can it provide for us here at the campus.

This unit is on casters, and can be easily transported from one place to another. If we were to have an emergency situation happen here on campus, we could use the generator to power elements of importance until grid power was restored. The energy is clean, no fumes or sound and is self-sustaining. At some point in the future this concept will become part of every household. This is the reason why it is vitally important to teach our students the value of alternative energy.
GRADUATION: ALWAYS SOMETHING TO LOOK FORWARD TO!

PICTURES FROM 11/8/14
YOUR DAY IS COMING TOO!
GET ALL YOU CAN FROM YOUR EDUCATION! TIME FLIES!
JUST ASK THESE GUYS!

From the Desk of Dan Shea, Automotive Program Director

Where we started.
We started the Automotive Technician program at Vatterott NorthPark on December 2, 2013 and have 12 students that have grown with us from the beginning, and are posed to graduate on January 24, 2015. These students proved their dedication by their effort to excel during the adversity of building the Program in conjunction with building their education. I wish to congratulate Rufus Branner, Derek Cole, Terrell Hicks, Walter Huntley, Curtis Johnson, Terry Parker, Darnarius Patrick, Blake Robinson, Christopher Robinson, Anitra Trigg, Vincent Wade, and Orlandus Williams as the 1st Automotive Technologies graduating class for the NorthPark campus. I want to say to those students and all the automotive students from the various other starts that have been helping us grow through the last year. Thank You for your hard work and your willingness to work with us as we grow.

Where we are Today.
We have close to 100 students, 9 instructors with over 275 years accumulated experience and knowledge in the auto repair industry, 6 ASE Master Technicians and 1 ASE Certified with Manufacturer’s Master Certifications including GM, Ford, Chrysler, VMW, Audi, VW, Nissan, Mazda, Isuzu, and a Certified Transmission Rebuilder by the American Transmission Rebuilders Association. All the instructors are graduates from a trade school or college, plus one has a Bachelors of Science Degree in Automotive Technology.

Where do we want to be next year this time?
I would like to increase student count by 60%, add more hands-on work stations in the Lab and visual aids in the classroom. We will be building a 1/4 mile race car and the students that volunteer to help will receive extra credit if they wish to participate and learn about that part of the automotive industry. I hope we have completed a race season by this time next year.

SUCCESS STORIES … FROM THE ELECTRICAL DEPARTMENT

*Former electrical AOS student, Anthony Franklin, is currently working at Panelmatic Inc., as a builder. Mr. Franklin receive this job just before graduation and is grateful for the education that he received from Vatterott and is working towards a good career.

*Electrical AOS student, Dominick Bonner, is currently working at Control Tech Automation as a control panel wireman. Mr. Bonner is taking his skills that he gained at Vatterott to the next level as he approaches graduation.

*Electrical AOS student, Larry Hudson, currently is working at Control Tech Automation as a control panel wireman. Larry has been there for 6 months and has started training new employees. Mr. Hudson is well on his way to a promotion.

**Networking Starts Here!**

Be mindful who you connect with while in school. These relationships you build with instructors and fellow students could alter the course of your life—leading you to job opportunities not before open to you. Get to know the folks in the lists above. These people have the capacity to change your future and become catalysts to your success!

Take every opportunity to share ideas, study in groups, be a part of your college experience. Connect.

All 3rd Phase students need to complete a Career Services Appointment 4 Advisement. This is a very brief meeting in which a member of the Career Services team will explain our services and start helping you prepare for your job search and ultimately your NEW career!

No appointment needed!

Vatterott Opens an Online Merchandise Store!
http://vatterott.edu/current.asp ... “School Store”

We now have a campus online store for ordering merchandise. Many of you have asked for this for quite some time! You can purchase shirts, pants, outerwear, bags, and accessories. Like beanies, scarves, baseball caps, rolling backpacks, duffel bags, hoodies, t-shirts, sweats, shirts, and more. Reasonably priced and geared to show school spirit!

When ordering, keep in mind, here in Missouri, we are “Vatterott College” … other states are “Vatterott Career College” … so select “Vatterott College” as your choice!

Why NorthPark? Location, Education, & Information

The NorthPark Campus, conveniently located adjacent to Interstates 70 and 170 in the heart of St. Louis, provides almost 96,000 ft of lab and classroom space designed to provide our students an environment that optimizes their learning potential. At the NorthPark campus, you can expect:

- Industry-current equipment
- Financial Aid for those who qualify
- Student Support Services
- Library Services
- Career Assistance Services
- Small Classes for better student/faculty interaction
- Student computer labs
- Companion Web access for learning anywhere

For a color copy of the NorthPark News, go to www.vatterott.edu/northpark and click on “Student Newsletter” … you can use the web address of the Newsletter on your Twitter, Facebook, etc ….
Share with your family and friends.
