

Ensuring the safety and security of the campus community is a critical priority for the Court Reporting Institute - Dallas (the "College"). In recognition of this fact, and in keeping with applicable federal requirements, the College, located at 1341 West Mockingbird Lane, Dallas, Texas, publishes each year this Safety and Security Report (the "Report"). This Report discloses information concerning the College's safety and security policies and procedures, as well as statistics regarding certain types of crimes reported to the College and local law enforcement during the prior year. It is the College's intention that this Report will inform its students, prospective students, employees and prospective employees of the College's safety and security policies. Further, this Report is intended to provide such parties with key information regarding the security of the College and surrounding areas, and ultimately, to create a safer more secure campus environment.

This Report is made available to the public on the College's website. Notice of the Report's availability is distributed to all prospective students and employees prior to enrollment or employment, as applicable. Notice also is distributed annually to all current students and employees.

I. POLICIES AND INFORMATION RELATING TO CAMPUS SAFETY AND SECURITY

Security Awareness

The College recognizes, and encourages others to be aware, that no environment is entirely free of risk. Each person must assume responsibility for his or her own safety both on-campus and off. This having been said, the College strives to provide its students and employees a secure and safe environment in which to teach and learn, including through compliance with applicable federal, state, and local building codes and board of health and fire marshal regulations.

Security of and Access to Campus Facilities

Access to campus facilities is controlled at all times. Enrolled students are required to enter and exit campus facilities through designated doors. The main entrance of the College is only for the use of College personnel, visitors and students. All visitors should enter through the main entrance and sign a Visitor's Log. The College is located in a public building housing numerous other businesses. There is one Security Guard stationed at the main entrance of the building 24 hours per day, 7 days a week. The Security Guard also patrols other areas of the College and the parking area periodically during the day and evening. All doors to the building remain locked from 11:00 p.m. until 8:00 a.m. and only designated personnel have access to the building during those times. Neither visitors nor guests are allowed to access or visit any area of the campus without the permission of a College employee. No visitor or guest may attend any class without knowledge and permission of an authorized school official. The College does not operate or sponsor any on-campus or off-campus student housing or student organizations, including fraternities or sororities.

Campus Security

The College's Campus Security Authorities are authorized to ask persons for identification and to determine whether individuals have legitimate business at the College. Campus Security Authorities do not possess the power to arrest. Criminal incidents are referred to the local police who have jurisdiction over the campus. The College does not have any agreements with local law enforcement for the investigation of alleged criminal offenses. However, the Campus Security Authorities at the College maintain a highly professional working relationship with local law enforcement. All crime victims and witnesses are strongly encouraged to immediately report any crime to the College's Campus Security Authorities and the appropriate police agency, in accordance with the reporting

procedures set out below. Prompt reporting will ensure timely warning notifications to the campus community and timely disclosure of crime statistics.

Possession, Use and Sale of Alcoholic Beverages or Illegal Drugs; Enforcement of State Underage Drinking Laws and State Drug Laws

As a matter of policy, the College prohibits the unlawful manufacture, possession, use, sale, dispensation, or distribution of controlled substances or alcohol by students and employees on its property or at any College activity. Any violation of these policies will result in appropriate disciplinary action up to and including expulsion in the case of students and termination in the case of employees, even for a first offense. Violations of the law also will be referred to the appropriate law enforcement authorities. It is unlawful to sell, furnish or provide alcohol to a person under the age of 21. The possession of alcohol by anyone less than 21 years of age in a public place or a place open to the public is illegal.

Students or employees also may be referred to substance abuse help centers. If such a referral is made, continued enrollment or employment may be subject to successful completion of any prescribed counseling or treatment program. Information regarding drug and alcohol abuse prevention can be obtained from the College's Admissions staff.

Unlawful Discrimination, Harassment, and Retaliation

The College is committed to providing an environment for students and employees that is pleasant and free of unlawful discrimination, harassment, and retaliation. Accordingly, unlawful discrimination, harassment, and retaliation by students, employees, co-workers, supervisors, managers, executives, directors, or any other member of the College community is strictly prohibited.

College employees have a duty and obligation to immediately report alleged instances of unlawful discrimination, harassment, or retaliation either to Vatterott's Human Resources Department, in the case of matters involving employees, or to Vatterott's Student Affairs Department, in the case of matters involving students. This responsibility is discussed in more detail in the *Employee Handbook*, as well as the College's *Unlawful Discrimination, Harassment and Retaliation Reporting Policy*.

Any student who feels that he or she has been subject to unlawful discrimination, harassment, or retaliation should immediately inform the Campus Director or the Director of Financial Aid.

Upon receipt of a report of alleged unlawful discrimination, harassment, or retaliation, the College will investigate without delay. At times, it also may be necessary to undertake intermediate measures before completing an investigation to ensure that further unlawful conduct does not occur. The College's investigation will be conducted in an objective and impartial manner, and carried out in such a way as to maintain confidentiality to the greatest extent possible. All pertinent facts will be carefully reviewed and the accused will be given a full opportunity to explain his or her conduct before any decision is reached. When the investigation is complete, the College will inform the person filing the complaint and the person alleged to have engaged in the unlawful conduct of the results of the investigation.

If it is determined that inappropriate conduct has been committed by one of the College's employees, the College will take appropriate disciplinary action, consistent with the *Employee Handbook*. Such action may range from counseling to immediate termination of employment. In the event the behavior in question does not lead to immediate termination of employment, but instead leads to some form of written warning, the disciplined employee will have an opportunity to defend his or her actions and rebut related allegations at the time the disciplinary action is issued.

If it is determined that inappropriate conduct has been committed by one of the College's students, the College will take appropriate disciplinary action, consistent with the *Campus Catalog*. Such action may range from suspension to termination from training. A student who has been suspended or terminated from training as a result of a disciplinary decision at the campus-level may appeal the determination pursuant to the Student Disciplinary Appeal process set forth in the *Campus Catalog*.

Programs and Information to Prevent Unlawful Discrimination, Harassment, and Retaliation

On an annual basis, the College's Human Resources Department conducts mandatory on-campus training and/or web-based training for all employees relating to the prevention of unlawful harassment, discrimination, and retaliation. Such training also is conducted with all new employees as part of the new hire orientation process.

The College conducts training relating to unlawful harassment, discrimination, and retaliation for incoming students during orientation, and at least annually for all students. This training includes the electronic distribution of the College's current *Campus Catalog* (which contains policies and information on the prohibition of unlawful harassment), as well as literature promoting prevention.

Additional information concerning the College's policies and procedures relating to the reporting, prevention, and management of unlawful harassment, discrimination, and retaliation are located in the *Campus Catalog*, the *Employee Handbook*, and the College's *Unlawful Discrimination, Harassment and Retaliation Reporting Policy*.

Sexual Assault, Domestic Violence, Dating Violence, and Stalking

The College strictly prohibits sexual assault, domestic violence, dating violence, or stalking by employees and students, and will not tolerate any such conduct in any form. These offenses have the following meanings for purposes of the policies and procedures set out in this Report:

- *Sexual Assault* is defined as an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.
- *Domestic Violence* is defined as felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.
- *Dating Violence* is defined as violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on a consideration of the following factors: the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship.
- *Stalking* is defined as engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or to suffer substantial emotional distress.

In addition, for purposes of this Report, the term *Consent* means expressed or implied assent. However, assent does *not* constitute consent if (1) it is given by a person who lacks the mental capacity to authorize the conduct and such mental incapacity is manifest or known to the actor, (2) it is given by a person who by reason of youth, mental disease or defect, or intoxication, is manifestly unable or known by the actor to be unable to make a reasonable judgment as to the nature or harmfulness of the conduct charged to constitute the offense, or (3) it is induced by force, duress or deception.

College employees have a duty and an obligation to report immediately alleged instances of sexual assault, domestic violence, dating violence, or stalking to the College's Human Resources Department and, in the instance of student allegations, to the College's Student Affairs Department. This responsibility is consistent with the employee responsibilities set forth in the *Employee Handbook*, as well as the College's *Unlawful Discrimination, Harassment and Retaliation Reporting Policy*.

If any individual (student or employee) is a victim of sexual assault, domestic violence, dating violence, or stalking, his or her first priority should be to locate a place of safety. He or she next should obtain any necessary medical treatment. The College strongly advocates that subsequent to securing safety and medical care, any victim of sexual assault, domestic violence, dating violence, or stalking should report the incident immediately to the College's Campus Director or Director of Financial Aid. Time is a critical factor for evidence collection and preservation. Preserving evidence is very important, as it may be necessary to the proof of sexual assault, domestic violence, dating violence, or stalking, or in obtaining a protection order.

Any student or employee who reports to the College that he or she has been a victim of domestic violence, dating violence, sexual assault, or stalking, whether the offense occurred on or off campus, shall be provided with a copy of this Report, as well as documentation detailing:

- His or her options to (1) notify proper law enforcement authorities, including on-campus and local police; (2) be assisted by campus authorities in notifying law enforcement authorities if he or she so chooses; and (3) decline to notify such authorities.
- His or her rights and options for (and available assistance in) changing academic, living, transportation, and working situations if so requested and reasonably available, regardless of whether he or she chooses to report the crime to the authorities.
- Where applicable, his or her rights, and the College's responsibilities, regarding orders of protection, no contact orders, restraining orders, or similar lawful orders issued by a criminal, civil, or tribal court.
- The United States Department of Justice Violence Against Women Office website, located at <http://www.ovw.usdoj.gov/>, which provides useful information relating to victims' rights and available assistance.

Any reported incident of domestic violence, dating violence, sexual assault, or stalking will be subject to a prompt, fair, and unbiased investigation and resolution. Investigations and institutional disciplinary proceedings related to reported incidences of sexual assault, domestic violence, dating violence, or stalking will be conducted by qualified, impartial officials. Such officials will have received training regarding the nature of the noted offenses and how to conduct an investigation and hearing that protects the safety of the alleged victim while promoting accountability.

Both the accuser and the accused are entitled to have others present during any institutional disciplinary proceedings related to accusations of the above offenses, including the advisor of their

choice. In connection with the proceedings, both the accuser and the accused will be provided with the definitions of sexual assault, domestic violence, dating violence, stalking, and consent in the applicable jurisdiction and as appropriate to the matter at hand. A preponderance of the evidence standard will be utilized in the determination as to whether one of the above offenses has occurred. Both the accuser and the accused will be informed simultaneously in writing of the following:

- The outcome of any institutional disciplinary proceeding that arises from an allegation of domestic violence, dating violence, sexual assault, or stalking.
- The institution's procedures for the accused and the victim to appeal the results of the institutional disciplinary proceeding.
- Any change to the results that occurs prior to the time that such results become final.
- When such results become final.

Throughout the investigative and disciplinary processes, the College will protect the accuser's identity by limiting the persons with knowledge of the matter to those directly involved in the proceedings, and by ensuring that all documentation relating to the proceedings is maintained by the College's Human Resources or Student Affairs staff, apart from the standard student/employee filing systems. In this manner, the College will ensure that publically available record keeping may be accomplished without inclusion of identifying information about the accuser (to the extent permissible by law). In addition, the College may change an accuser's academic situation in connection with any such proceeding, if the change is requested by the accuser and is reasonably available.

Sanctions or protective measures that the College may impose following a final determination of an institutional disciplinary procedure regarding rape, acquaintance rape, domestic violence, dating violence, sexual assault, or stalking may include, without limitation, suspension or expulsion from the College or termination of employment. If it is determined that inappropriate conduct has been committed by one of the College's employees, the College will take disciplinary action in accordance with the provisions set out in the *Employee Handbook*. If it is determined that inappropriate conduct has been committed by one of the College's students, the College will take disciplinary action consistent with the processes set out in the *Campus Catalog*. Finally, as noted above, criminal incidents will be referred to the local police who have jurisdiction over the campus.

Programs and Information to Prevent Sexual Assault, Domestic Violence, Dating Violence, or Stalking

The College conducts primary prevention and awareness training programs designed to promote the awareness of rape, acquaintance rape, domestic violence, dating violence, sexual assault, and stalking. Such training is offered to all incoming students and new employees during their respective orientation processes. In addition, at least annually, the College conducts ongoing prevention and awareness training programs for current students and employees. These training programs include a review of the policies set out in this Report and, as appropriate, a review of the College's *Employee Handbook* or the *Campus Catalog*. In addition, as required under federal law, these programs also specifically cover:

- The definitions of sexual assault, domestic violence, dating violence, stalking, and consent in the applicable jurisdiction.
- Safe and positive options for bystander intervention that may be carried out by an individual to prevent harm or to intervene when there is a risk that another individual will experience domestic violence, dating violence, sexual assault, or stalking.

- Information on risk reduction to recognize warning signs of abusive behavior and to avoid potential attacks.
- Information regarding existing counseling, health, mental health, victim advocacy, legal assistance, and other services available in the community.

Reporting Suspected Physical or Sexual Abuse of Children

Any College employee who in the course of employment receives information related to suspected physical or sexual abuse of children or reasonably suspects the physical or sexual abuse of a child must immediately report such information to his or her Campus Director and to the Vatterott Human Resources Department. If there is reason to believe that immediate protection for the child is advisable, an oral report also shall be made immediately to the appropriate law enforcement agency.

Information Regarding Registered Sex Offenders

In accordance with the "Campus Sex Crimes Prevention Act" of 2000, which amended the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act, the Jeanne Clery Act, and the Family Educational Rights and Privacy Act of 1974, the College is providing the following link to the Federal Bureau of Investigation's *National Sex Offender Public Website*, which provides law enforcement information provided by each State concerning registered sex offenders:

<http://www.fbi.gov/hq/cid/cac/registry.htm>

Note, the information provided through the link above should be used only for the purposes of the administration of criminal justice, screening of current or prospective employees, volunteers or otherwise for the protection of the public in general and children in particular. Unlawful use of Registry information for purposes of intimidating or harassing another is prohibited and any willful violation shall be punishable as a Class 1 misdemeanor.

II. REPORTING CRIMES OR EMERGENCIES OCCURRING ON CAMPUS

Members of the College's community, including students, faculty, staff, and visitors, are strongly encouraged to report immediately any crime, emergency, or other public safety concern to the College's Campus Security Authorities and the appropriate local law enforcement agency, even if the victim of such crime elects or is unable to make such a report. In addition, any such crimes or concerns may be reported to the College's senior staff. Contact information for these parties is as follows:

Security Guard	(214) 631-6329
Campus Director – Kathy Sheffield	(214) 350-9722
Director of Financial Aid – Nora Alonzo	(214) 350-9722

Individuals should report any alleged instances of unlawful discrimination, harassment, retaliation, sexual assault, domestic violence, dating violence, stalking, or suspected physical or sexual abuse of children in accordance with the instructions detailed in the prior sections, above.

The College's senior staff should enter any crime, emergency or other public safety concern brought to their attention into the College's online incident report system, taking care to indicate whether the reported incident was an alleged crime.

The College does not have procedures for voluntary, confidential reporting of crime for inclusion in this Report. All reports will be investigated and all violations of the law will be referred to law enforcement agencies.

Through periodic safety and security training, the posting of this Report on the College's website, and the distribution of notices regarding this Report to new and current students and employees, the College informs students and employees about campus security procedures and practices, encourages students and employees to be responsible for their own security and the security of others, and informs students and employees about the prevention of crimes.

III. TIMELY WARNING OF CERTAIN CRIMES

Should certain crimes occur, either on or off-campus, which, in the judgment of the College's Campus Director, constitute an ongoing or continuing threat, a campus-wide "timely warning" will be issued to the campus community in a manner that will aid in the prevention of similar occurrences. This timely warning will be issued through the College e-mail system to students, faculty, and staff. Related information also will be posted in classrooms, in the learning resource center, on student bulletin boards, and in common areas, as appropriate. This timely warning will withhold the names of victims as confidential.

IV. EMERGENCY MANAGEMENT

Emergency Management Master Plan

The purpose of the College's *Emergency Management Master Plan* (the "Master Plan") is to establish policies, procedures, and an organizational structure to ready for and respond to on-campus emergencies. Accordingly, the Master Plan outlines administrative steps for response to, stabilization of, and recovery from an emergency event, the specific procedures that the College will use to communicate with faculty, staff, students and the general public during an emergency, and the responsibilities of the Emergency Management Team ("EMT").

The primary function of the EMT, as detailed in the Master Plan, is to plan and execute emergency preparedness, response, and recovery functions. The EMT is responsible for assessment and implementation of emergency procedures, to include initiation of the Emergency Notification Alert System ("ENAS"), discussed below, evacuations, lockdowns, crowd control, and coordination with responding emergency services. The campus EMT consists of the Campus Director, Director of Financial Aid, and other campus management designated as members of the team.

Emergency Action Plan

The College's *Emergency Action Plan* (the "Action Plan") establishes and delineates emergency and evacuation procedures for specific emergency events (e.g., fire, earthquake, bomb threat). The Action Plan is published in an easy-to-use, flip-chart form that is available in public spaces throughout the College. All faculty, staff, and students are encouraged to review the Action Plan periodically and the College will test emergency response and evacuation procedures on an annual basis.

General Emergency Evacuation and Notification Procedures

Should an event occur, either on or off-campus, which, in the judgment of the EMT, constitutes a significant emergency or dangerous situation involving an immediate threat to the health or safety of the campus community, a campus-wide notification will be issued by activating ENAS. The College

maintains the ENAS so as to timely provide information to the College community in the event of an emergency situation. The primary means of delivery of emergency information is via email and text message to cellular telephones. Because the College provides all students and employees with individual email addresses, these email addresses will be automatically incorporated into the ENAS database. The personal cellular telephone number of students and employees may also be incorporated into the ENAS and receive emergency alerts.

The ENAS is only for use upon the confirmation of an emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring at the campus. "Immediate" threat as used here encompasses an imminent or impending threat. "Confirmation" means that an institution official (or officials) has verified that a legitimate emergency or dangerous situation exists.

Some examples of significant emergencies or dangerous situations are:

- Extreme weather (e.g., tornado, flood)
- Earthquake
- Terrorist incident
- Armed person(s)
- Bomb Threat
- Explosion

Examples of situations that would **not** necessitate an emergency response or alert include:

- Power outage
- Snow closure
- String of larcenies
- Minor altercation

Prior to activating the ENAS or making an emergency announcement, the Campus Director will determine (1) whether, in his or her judgment, the information suggesting that an emergency has occurred is credible, and (2) whether issuing a notification or making an announcement would compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. If the Campus Director is unable to carry out the duties described above, they will be carried out by the Director of Financial Aid or some other member of the EMT.

In the event of an emergency, the Campus Director will craft a brief notification containing pertinent information about the nature of the emergency (e.g., approaching tornado, gas leak) and include direction regarding the appropriate response (e.g., take cover, evacuate). In addition to activating the ENAS, the Campus Director may, if warranted, make an emergency announcement over the College intercom system, provided the facility is equipped with such a system.

Should an emergency announcement be made directing a general evacuation, all persons on campus should exit the building immediately by way of the nearest stairwell, marked with a lighted red exit sign, and follow the signs, exiting to the outside and quickly proceeding to the parking lot in front of the building. If the nearest stairwell is blocked, individuals should use another stairwell. Posted evacuation routes for each office or classroom space are located throughout the building, typically near the door. Persons should *not* use any elevator while evacuating. It is the responsibility of all able staff to assist any persons with disabilities in descending the stairwell quickly and safely.

Individuals who exit the building first must position themselves far enough away from the street to enable everyone to stand clear of emergency vehicles. The street must be kept clear at all times, so as not to hamper the movement of emergency vehicles into the area.

Once outside the building, the EMT will confirm that appropriate emergency personnel have been contacted, congregate all employees in the parking lot in front of the building, confirm that all employees and visitors are out of the building, and meet with emergency personnel at the front

entrance to provide additional information. Staff members trained in CPR and rescue breathing should survey the individuals outside to determine if anyone is in need of first aid and provide such aid as required. Individuals should not re-enter the campus building for any reason until it is declared safe by the appropriate emergency personnel and the Campus Director has agreed to permit persons to re-enter.

Should an emergency occur, either on or off-campus, which, in the judgment of the Campus Director, constitutes an ongoing or continuing concern, follow-up information will be issued to the campus community, as appropriate. This information will be issued through the College's e-mail system to students, faculty, and staff. Related information also will be posted in classrooms, campus library, student bulletin boards, and student lounges as appropriate.

The College will conduct annual tests of the ENAS to ensure preparedness in the event of an actual emergency. Such tests may include email or text message test alerts, scheduled drills or exercises, and appropriate follow-through activities designed for assessment and evaluation of emergency plans and capabilities. Documentation of any such test is maintained at the College, and includes a description of the exercise, the date and time at which it occurred, and whether it was announced or unannounced.

Through periodic active shooter and emergency response training, fire and evacuation drills, the posting of this Report on the College's website, and the distribution of notices regarding this Report to new and current students and employees, the College publicizes emergency response and evacuation procedures to students and staff on an at least annual basis.

Post-Emergency Measures

As outlined in the *Master Plan*, following the occurrence of an emergency, the following steps will be taken. In the event that the College was not able to alert external emergency response entities (e.g., local law enforcement authorities, fire department, emergency medical services), the appropriate authority should be contacted and informed of the situation. Also, if the EMT was not able to send an alert notification to the College's designated emergency email address, such alert should be sent to initiate appropriate response, support, and coordination within the Vatterott system.

The EMT then shall begin to coordinate with the corporate office, to the extent possible, to assess the situation. The goal of this initial assessment is to identify and avoid any remaining danger or risk to the safety or well being of students, staff, and visitors at the College's location. The EMT should work to maintain order and take necessary steps towards the accomplishment of this goal. To the extent possible, the EMT should attempt to restore general campus operations.

Subsequent informational notifications will be communicated to students and staff via email and also posted to the online student portal or made available by other means (the ENAS will be used only in response to an immediate emergency situation and is not considered appropriate for follow-up communications once the immediate emergency situation has ended).

V. CRIME STATISTICS

Each year the College prepares the crime statistics included in this Report with assistance from its Regulatory Affairs division, and in cooperation with the College's Campus Security Authorities and local law enforcement agencies. When compiling and preparing the statistics disclosed in this Report, the College examines crime data received from local law enforcement, incident reports filed by any member of the College or the College's Campus Security Authorities, and the College's Crime Log. The crime statistics for each of the three previous calendar years are included in this Report. Because

the College does not own or operate any (1) non-campus buildings or property or (2) dormitories or other residential facilities for students, statistics are not reported for these categories of location.

[See next page for Crime Statistics]
